

WMSDP

Web Module for Scientific Dairy Practices

❖ As the traditional livestock extension mechanism for transfer of technology have numerous limitations, so the IT enabled extension tools and techniques have become an unavoidable necessity for organizations especially those involved in technology transfer. In this context a “**Web module for dissemination of need based scientific dairy practices (WMSDP) among farmers**” was designed and developed.

❖ Designed and developed Web Module is installed at Veterinary & Animal Husbandry Extension **divisional KIOSK**, Faculty of Veterinary Sciences & Animal Husbandry, R.S Pura, as well as hoisted on SKUAST Jammu website under farmers friendly portal *Kisan Hiteshi*
<https://skuast.org/WMSDP/>

❖ The developed web module consists of comprehensive information on scientific dairy practices covering important aspects like **health care management, fodder production and management, general management, nutrition, feeding, breeding, reproduction and recent trends like organic dairy farming livestock insurance, dairy entrepreneurship development schemes, dairy economics etc**
